

# Additional Scripts Migration Checklist

Get your tracking off Additional Scripts before August 26, 2026. Built by Kaspian Fuad, Shopify developer.

## The deadline

**Aug 26, 2026**

*Non-Plus Additional Scripts removed.*

**Basic / Shopify / Advanced**

*All three plans are affected.*

**No rollback**

*Tracking goes silent the moment it hits.*

## Fix first: GA4 + Google Ads

**Google & YouTube app**

*Installs a managed Web Pixel for you.*

**Replaces gtag**

*GA4, Google Ads, Enhanced Conversions.*

**~20 minutes**

*The highest-value single step.*

## Fix second: Meta

**Facebook & Instagram app**

*Native Pixel + Conversions API.*

**Replaces fbq**

*Automatic event deduplication.*

**Server-side**

*Survives browser ad blockers.*

## Audit: where scripts hide

**Additional Scripts**

*Settings, Checkout, Order processing.*

**Thank You page box**

*Conversion tags hide here.*

**Order Status page box**

*Post-purchase scripts hide here.*

## Tag every snippet

**Tracking**

*GA4, Meta, TikTok, Klaviyo.*

**Validation**

*COD, postal code, minimum order.*

**Dead**

*Nobody remembers adding it. Delete.*

## The replacement map

**Pixels**

*Customer Events / Web Pixels API.*

**Validation**

*Cart and Checkout Validation Function.*

**Payment rules**

*Payment Customization Function.*

## Custom GA4 events

**analytics.subscribe()**

*In Settings, Customer Events.*

**No DOM, no cookies**

*Read from event.data only.*

**event.clientId**

*Use it to stitch the user.*

## COD / validation logic

**Shopify Function**

*Runs server-side on every plan.*

**shopify app init**

*Scaffold, deploy, install on store.*

**Cannot be bypassed**

*Unlike a JavaScript snippet.*

## Verify before deleting

**GA4 DebugView**

*Confirm the event lands.*

**Meta Test Events**

*Confirm Purchase fires.*

**Run parallel 1 day**

*Then remove the legacy code.*

## Plus vs non-Plus

**Non-Plus keeps**

*Pixels, validation, payment, delivery.*

**Plus only**

*Author your own Checkout UI Extension.*

**Everyone**

*Checkout Editor for logo and colors.*
