Runs Google's PageSpeed Insights through a lightweight same-origin proxy. Real-user data is a 28-day rolling window. Lab opportunities are a fresh Lighthouse run.

After 100+ Shopify CRO audits, the slowest stores never knew their score until a customer complained. CrUX field data is the actual signal Google ranks on, and most operators never look at it because the tools are buried inside Search Console or

Grade your store's real-user mobile LCP in one free scan. No signup needed.
